TRIM DESCRIPTION

QUARTER ROUND

Applied to cover the expansion gap between the flooring and the wall.

END CAP

Often time called Square Edge or Threshold, used when butting up to carpet or a sliding glass door.

T-MOLD

Joins two floors of equal height, such as in a doorway, between two rooms or in a large area where the maximum length/width is exceeded.

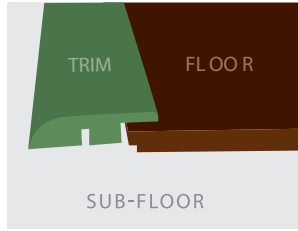

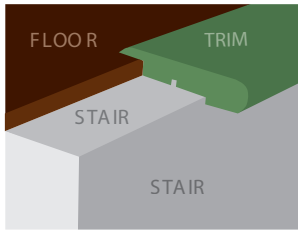

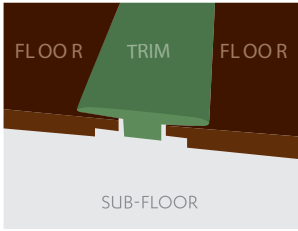

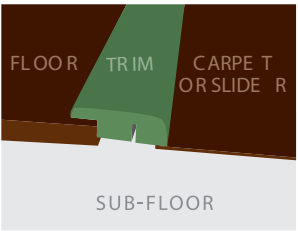

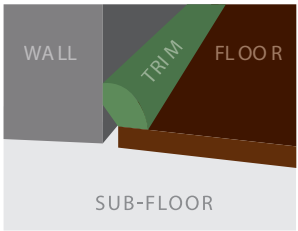

STAIR NOSE

Ends flooring at the top of either a landing or downward staircase.

REDUCER

Ends the flooring onto a surface such as concrete.
